

Carpooling, Ride Sharing and Public Transit Safety

Available Transit Options in Cariboo North Communities

BC Transit provides low-cost public transportation in most Cariboo North communities. To find out more information about routes, schedules and fares, visit the BC Transit website: [BC Transit-Choose Transit System](https://www.bctransit.com/choose-transit-system)

If you and a neighbour, friend or colleague travel the same route, consider carpooling! Travelling together can save you both money, and is also better for the environment.

Taxi companies operate in most Cariboo North communities. To call a taxi cab in your community, look up their number in the [Yellow Pages](#). Please note that some taxi companies may only accept cash.

If you live in Prince George, you can sign up and use the Uride Ride Sharing App at the following link: uridetech.com

Safety Tips

1

Wait in a busy well-lit area or indoors if you can until your transportation has arrived.

2

Keep your personal information confidential. Share as few details as you can about where you live, contact information, etc.

3

If you are travelling alone in a taxi or ride share, sit in the backseat.

4

Never be afraid to ask for help! Call 911 if you feel unsafe.

5

Share your trip! If travelling alone (especially at night) always share your trip details with a family member or friend.
